DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-30 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5520114 issued to Guimard et al. ("Guimard"). Guimard discloses a networked electronic ordnance system, comprising: a plurality of pyrotechnic devices 15 connected to a network by sheathed wires 16a and 16b; a firing unit 17; a programming unit 18; said pyrotechnic devices 15 further comprising a supply unit 302, a communications interface 301, a logic unit 303 and a management unit 300; said management unit further comprising a resistor 26 and reservoir capacitor 29. Guimard further discloses that prior art detonators have been known to be connected in series or parallel (col. 1, ll. 19-24).

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents cited in form PTO-892 are cited as of interest to show similar networked pyrotechnic devices.
